

## Adoptions team reaches major milestone!

Kudos to Heaven on Earth's adoptions team, which recently celebrated the fifth anniversary of our weekly Saturday adoptions event at the Petco in Van Nuys, California.

During this time, team members Destiny Haney, Anita Kay, Erin Lynch and Carlos Montenegro, who serves as Heaven on Earth's VP and director of adoptions, have found good and loving homes for countless cats and, at the same time, educated the public on Heaven on Earth's mission. They have offered guidance on topics ranging from litter box issues, cat integration, feral cats and TNR, to testing, vaccinations, mom cats and bottle babies.

Because of their dedication, our list of Heaven on Earth "alumni cats" keeps growing, and we hope to be celebrating milestones with this terrific team for many years to come.

Congrats, Destiny, Anita, Erin and Carlos!
